Who we are and what we do

LB Group is a large chemical company dedicated to the development, manufacture and integration of new materials. We operate a dynamic business with a strong and expanding global presence - investing in the future.

We have 3 main synergistic product lines:

Titanium

- High-performance titanium dioxide (TiO_2) pigments for coatings, plastics, inks, and paper
- Titanium sponge, used to make titanium alloy and pure titanium metal
- Titanium alloy, used in the manufacture of air and spacecraft
- Ilmenite and titanium slag

Zirconium

- ZrO_2 used as a powder grinding media and in ceramics
- ZOC used to coat some TiO_2 pigments and in automotive catalysts

Lithium-ion battery materials

- Iron phosphate and lithium iron phosphate used in the lithium battery energy industry

The world's leading manufacturer of titanium dioxide pigments

LB Group is the world's leading manufacturer of high-performance titanium dioxide pigments.

We have an impressive history of TiO₂ pigment manufacturing experience and manufacture a wide range of TiO₂ pigments for all major applications using the sulfate process and the chloride process. Our TiO₂ pigments are established worldwide.

LB Group is listed on the Shenzhen Stock Exchange LMBL:002601

Key Facts

In July 2021 Lomon Billions changed its name to **LB Group**

~**1,510kt** TiO₂ pigment nameplate capacity including ~**660kt chloride-process** TiO₂ production capacity

Environmentally **responsible**

~ **20,000** employees

Over **1,000** active TiO₂ customers worldwide

12,000m² purpose-built technology center fitted with state-of-the-art analytical and application testing equipment and staffed with a large dedicated team of technical experts

Advanced research and development and manufacturing technologies produce our world class pigments including:

- **BILLIONS™ TR52** pigment - a world-leading sulfate TiO₂ pigment for performance printing inks and specialist coatings
- **BILLIONS™ BLR-895** pigment - a high performance chloride TiO₂ pigment for high quality architectural and industrial coatings
- **BILLIONS™ R-996** pigment - one of our most popular and most versatile pigments - used in a wide range of interior and exterior architectural coatings, industrial coatings, inks and plastics
- **BILLIONS™ BLR-886** pigment - an excellent dispersibility chloride TiO₂ pigment for polyolefin masterbatches, footwear and engineering plastics
- **BILLIONS™ LR-108** pigment - designed specifically for plastics and masterbatch applications
- **BILLIONS™ LR-952** pigment - a sulfate-process titanium dioxide pigment with excellent lightfastness for high-end decorative laminated papers

We have our own **ilmenite mines** in Panzhihua, Sichuan Province, China

We have our own **titanium-zirconium ore** mines in Perth and Adelaide, Australia

Over 35 years experience in the manufacture of TiO₂ pigment

Our TiO₂ pigments are established worldwide

We manufacture a wide range of TiO₂ pigments for all major applications using the sulfate process and the chloride process.

Our customers value our innovative pigments and the technical support we can offer.

Where we are

- A worldwide sales presence
- A global supplier with a growing regional support network

Our TiO₂ pigments are established worldwide

- Ilmenite Mine
- Titanium-Zirconium Ore Mines
- Manufacturing Sites
- Global HQ and R&D Technology Centre
- Sales Offices
- Regional HQ

CHINA

Global HQ and R&D technology center in Jiaozuo, Henan Province

6 TiO₂ pigment production plants in 5 locations:

- Deyang in Sichuan Province
- Jiaozuo in Henan Province
- Xiangyang in Hubei Province
- Chuxiong in Yunnan Province
- Jinchang in Gansu Province

Sales offices in:

- Chengdu
- Hong Kong
- Shanghai sales and technical service office

Ilmenite mine in Panzhihua, Sichuan Province

EUROPE

European HQ in Stockton-on-Tees, UK

NORTH AMERICA

North American HQ in Chicago, USA

AUSTRALIA

Titanium-zirconium ore mines in Perth and Adelaide
